AMERICAN NUMISMATIC ASSOCIATION

The American Numismatic Association is the largest and most active numismatic body in the world. It invites and welcomes to membership all worthy persons seventeen years of age or over, who have a sincere interest in numismatics, whether they collect coins, paper money, tokens or medals, whether advanced collectors or only those generally interested in the subject without being collectors. The Association was founded in 1891, and has over 20,000 members from every state in the Union and many foreign countries. It is federally incorporated by an Act of Congress in 1912 and is a mutual organization for the benefit of its members.

All Association members, except Associate, receive the official publication, *The Numismatist*, without cost other than their annual dues. Membership applications should be accompanied by \$5.00 for the first year's dues and \$2.00 admittance fee. Annual dues are \$5.00. Nonmember subscription, \$6.00. Single copy, fifty cents. For application blanks, subscriptions or general information, write to the General Secretary.

The Numismatist is an illustrated monthly which has been issued continuously since its founding in 1888, consists of 128 pages or more in each number and has subscribers in about sixty countries. Advertising inquiries should be sent to the Advertising Manager. All other matters for possible publication in or concerning *The Numismatist* are to be forwarded to the Editor. Unsolicited manuscripts, which are sent at the owner's risk, and other correspondence calling for a reply must be accompanied by stamped, self-addressed envelopes. Cuban Money in the Ten Years War

By

ROBERTO PESANT, A.N.A. No. 16764

SCARCELY six months after starting their long struggle for independence, October 10, 1868, the several Cuban delegations met at the small hamlet of Camaguey, and drew up a Constitution for the Republic of Cuba on April 10, 1869. This is of interest, mainly because it made no provisions whatever for coinage, and only vaguely mentioned (Article 14) the need for taxation and the raising of funds. Not long afterwards, however, in

American Government. There is little evidence available to explain why the difference, but the most reasonable argument is that the first series was the regular money placed in circulation, as stated: "The Republic of Cuba will pay the bearer . . . pesos. This note will be duly exchanged for cash and will be accepted in payment of taxes, customs duties and all other obligations." The other series are more like coupons, for it states that: "The

Fig. 1

July of that same year, paper notes in denominations of five and one peso and fifty centavos were put in circulation (Fig. 1). A month later more notes of a different design for the value of one peso were issued (Fig. 2).

These notes were issued by the Junta Central Republicana de Cuba y Puerto Rico, presided over by Miguel de Aldama, which had been established in New York to enlist help for the war as well as to attempt to gain recognition from the

Republic of Cuba through the Junta is in debt to the bearer for the amount of one peso. This note may be exchanged for government bonds at the Junta Treasury when presented in amounts of at least one hundred pesos." This last series does not appear to have circulated in Cuba. All notes have blank reverses and were printed in New York.

In 1869 an attempt was made to strike coins, which does not seem to have been pursued. A bronze pat-

tern peso was struck in New York with neither date nor value, on the obverse the legend REPUBLICA DE CUBA and on the reverse the Cuban flag. This interesting piece was in the collection of the Museo de Cárdenas, but in 1931, due to a hurricane, a considerable part of the museum's collection was lost. A description of this piece was published in 1921, however.*

There are also other pieces in silver, differing slightly in design (Fig. 3) which may be from the same source. On the obverse is a shield with the legend REPUBLICA CUBANA, thus differing from the aforementioned pattern; on the re-

were emblematic of the thirteen original colonies of the United States. There existed at that time a strong tendency to liberate Cuba from Spain and request annexation to the United States, but the dominant feeling of complete independence prevailed, hence the slight change as recorded above.

Another curious feature of these pieces is the portrayal on the reverse of the cocoanut tree instead of the royal palm. This same error occurs in the shield of the notes of the same year, and as will be seen, in the coinage of 1870.

The first real attempt to strike coin is in 1870, and though it is

Fig. 2

verse there are two cocoanut palms beneath the flag. The diameter is 28 mm. and the edge is plain. In the absence of further information it might perhaps be more reasonable to classify these pieces as medals.

The shield displayed on the obverse is not the official one as portrayed in the notes and in later coinage. The Cuban shield was designed in New York in 1849 by Manuel Teurbe Tolon. It has remained essentially the same to this day except that it was slightly altered, shortly after its design, by removing the original diadem of thirteen stars around the palm tree and also around the Phrygian cap, and instead placing a single star on the cap. The reason for this deletion was that the thirteen stars

quite certain that they never circulated (the few coins in the hands of collectors today are all either uncirculated or in brilliant proof), they were intended to be circulated. It is reasonable to surmise why they were discontinued. With very scant resources, locked in a desperate struggle which seemed to drag interminably, and recognized by hardly any nation, it would have meant to the Cuban Government a greater expense to issue monies which, at best, would only have been accepted for their metal value. It was a far more practical idea to issue paper monies and depend wholly on the good will of the bearer. Contrary to general opinion, these coins should not be considered patterns, for they are clearly labeled as pro-

visional coins (*moneda provisional*), and as such struck in bronze. The few pieces made in silver must have been for presentation to some of the higher officials of the government.

There are five pieces in the series: UN PESO, MEDIO PESO, 20, 10 and 5 CENTAVOS. Their diameters in millimeters are respectively 36, 30, 23, 17 and 13. All have reeded edges. On the obverse, in the field, the shield of the Republic surrounded by four flags, and underneath five six-pointed stars, the center one slightly greater in size. The legend REPUBLICA DE CUBA around. The reverse has the value in two lines in the field with a small five-pointed star underneath, all of which is encircled by a wreath of oak and laurel leaves. Underneath the knot is the

— except on very rare occasions in Hispanic-American coinage, the designer's (*ensayador*) and not the engraver's (*grabador*) initials were placed on coins.** If it were possible to establish Torretti's whereabouts in 1870, then logically, the site of the minting of these coins would be known. As will be shown, his whereabouts can be ascertained in 1868 and in 1877, but since the Cuban issue of 1870 falls in this gap of years, the P remains elusive. It has been suggested that it might stand for Philadelphia, though if that were the case, the unrecognized Cuban Government might have caused trouble to the American Government. Nevertheless, the possibility should not be discarded. Torretti is listed in Forrer as American.

Fig. 4

date 1870. Around and on the upper part the legend MONEDA PROVISIONAL (provisional coin) and at lower right, the designer's initials C. T. while to the left the supposed mint-mark initial P between dots.

As noted above, there is no doubt but that the arms displayed on the obverse (Fig. 4) are an exact replica of those on the notes issued the previous year. The reverse, however, is by far the most intriguing part, for it holds the key to the whereabouts of the minting of these coins. Whereas it is fairly certain that the previous coinage and the notes were executed in New York, it is uncertain so far in this case. The initials C. T. and P have been thought to stand for the designer and the mint-mark, but until now both were unknown. It is recorded here for the first time that the initials C. T. are those of Clemente Torretti. The term employed is designer, because — as it has been pointed out to me

On February 7, 1867, Melgarejo of Bolivia granted Torretti a contract for the establishment of a mint at La Paz with the exclusive right of coining 50,000 silver marcos in 20, 10 and 5 centavo pieces. On September 13, 1868, Bolivia rescinded this contract, and having purchased the minting machinery from Torretti, had it transported to the mint at Potosí in order to inaugurate there the new steam press striking on December 28, 1869. Torretti, meanwhile, had struck a few pieces of 20, 10 and 5 centavos, all dated 1868. Instead of marking them in the same manner as those of the previous (1853-59) mint at La Paz: PAZ, he substituted his own initials (C.T.). He also struck some peso size bolivianos, as patterns, which have an extraordinary resemblance to the Cuban pesos, (see Guttag Nos. 411B, 412, 412A) and other smaller coins with the same odd contraction of the value centavos:

**Perhaps assayer is a more correct term. Fonrobert classifies Clemente Torretti as *Muntpächter*.

CENTS^s (see Wayte Raymond, Bolivia, CW 32).

Were it not for the fact that Torretti's mint equipment had been dismantled and carted away to Potosi previously, it would have been a very safe guess that the Cuban coins were struck at La Paz. This, of course, must now be ruled out. Nine years later, in 1877, Torretti designed several patterns for the Republic of Haiti, which were struck at the mint in Brussels, Belgium, (*Catalogue of the Mint Collection*, 1912, Haiti, No. 51, also Gutttag, Nos. 2214 and 2213A). Again, the initials C. T. are placed in the coins, so that there is no doubt about this. During these years, several coins crop up which though lacking his personal identification, seem to have been made by him; for example in Honduras, in 1875 (*Catalogue of the Mint Collection*, Honduras, No. 14). This coin has the same odd contraction for centavos: CENTS^s. The Cuban Government had a diplomatic agent, Sr. Ambrosio Valiente, in Lima in those days, as well as unofficial representatives in Paris, so there may have been the possibility of contacting Clemente Torretti through these sources. However,

since there is still no definite proof, it remains a matter of guesswork where these coins were minted.

There seems to have been no further effort either to print or to mint money in the next eight years that were to pass before the war ended in defeat and complete exhaustion. According to a newspaper article, (*El País*, May 22, 1927), the adverse turn of the war forced the Cuban Government to hide the contents of its Treasury so that it would not fall into the hands of the victorious Spaniards; thereupon, "Sr. Eligio Izaguirre, first secretary of the Treasury, ordered the Undersecretary, Sr. Antonio Pérez, to bury the treasure in some safe and secret place." This was carried out, but regrettably its whereabouts remain unknown to this day.

ACKNOWLEDGEMENTS

I am indebted to and wish to thank the following for their kind help and encouragement:

Sr. Hernán Sanz, La Paz, Bolivia.

Changing Times

The shield nickel five-cent piece of 1866 in proof is a treasure listing at \$200.00. But you should hear what they thought of it in the year of issue—in doggerel, believe it or not, in that august publication the *American Journal of Numismatics*, Vol. IV p. 8; submitted by "C" (probably Edward Gogan).

Rare pieces there are from far distant clime,
And others deep-gnawed by the sharp tooth of time;
And pieces, my friends, that 'twont do to handle,
To which finest of proofs can scarce "hold a candle,"
That equal in splendor the new five-cent piece
(In praises of which let your tongues never cease),
For the models of *that*, with a sharp-pointed stick,
Were carefully cut on the end of a brick.
And in your collections it ought all to suit, sirs,
And banish forever all "bung-downs" (*sic*) and "kreutzers."
Its designs are composed of an artistic "hash,"
And 'tis equalled by nothing but old Chinese "cash";
But so "weighty" a *thing* should not be "made light of,"
And the theme of my strain I've surely "lost sight of."
So now I'll conclude, nor continue my song,

Yours, over the left,

Gointoem Strong

A.N.A. 1960 Convention — Boston

PROGRAM

What better way to start a vacation than to be in Boston at this time? Since last November, under the capable direction of James Ford Clapp, Jr., General Chairman, committees have worked like beavers to make this a spectacular affair.

This A.N.A. convention will be made up of many things, including surprise arrangements for the reception and entertainment of the women and children attending. And the Hospitality Room will be open continuously for refreshments, TV, etc.

Exhibits will be fantastic. The Boston Museum of Fine Arts, the Fogg Museum at Harvard University and the Essex Museum at Salem are arranging to show their best numismatic material. These

museums have outstanding collections of classical coins and colonials. The demareteion, in the Boston Museum of Fine Arts, is the best example known of this famous coin.

Many numismatists in the country have agreed to prepare fabulous displays in the convention exhibit room. Vernon Brown will bring some from the Chase National Bank's Moneys of the World Museum. The ANA and the ANS will have wonderful exhibits, and our Boston Numismatic Society plans a special 100th Anniversary one on Colonial paper money at the Home Savings Bank, Tremont St., Boston.

There will be ample insurance coverage for exhibits, and a security room will be available to receive material from August 22 at 4 p.m.

The 1960 A.N.A. convention committee chairmen shown at a meeting in Boston's Statler Hilton Hotel June 3 are, seated, l. to r., Mabel Tuttle, Ladies; Percy Rideout, Badges and Medals; June Pond, Secretary and Publicity; James Clapp, General Chairman; Louis Werner, Sergeant at Arms; W. J. Dodds, Bourse; Earl Tuttle, Registration; Edward Perkins, Exhibits. Standing, l. to r., Chandler Foster, Hotel Reservations; George Wardner, Reception; John Frates, Speakers; Anthony Porcaro, Assistant General Chairman; Malcolm O. E. Chell-Frost, Booklet; Benjamin Lowenstam, Protection.

Sometimes called the "Cradle of American Liberty" is Faneuil Hall in Boston where American patriots made fiery speeches and organized committees against the British which lead to the Revolutionary War. The second floor contains the original hall preserved in excellent condition, and on the ground floor visitors will still find the market stalls as they were nearly 200 years ago.

until August 28 at 4 p.m. Both exhibit and security rooms will be guarded by the Pinkerton Detective Agency.

There will be memorial awards for competitive exhibits in each of the following categories:

- 1— U. S. coins including colonials
- 2— Foreign coins before 1500
- 3— Foreign coins after 1500
- 4— U. S. paper money
- 5— Foreign paper money
- 6— Medals, orders and decorations

A specially designed ANA exhibit medal will be given as second and third awards in every category. Even if you're not fortunate enough to receive one of these, each exhibitor is assured a prize.

The ANA is providing exhibit cases for coins and special specifically designed frames for paper money. If you have your own cases, you're welcome to use them.

If you haven't made your hotel reservations, why not sit down right now and send your request to the Statler-Hilton, Boston? We are expecting a large attendance, and you know it's gayer to be at the convention hotel.

One of the highlights of the convention will be the educational program arranged by Pres. O. H. Dodson. He is inviting some of our talented numismatists across the country to tell you about their rarities.

The bourse of over one hundred booths is sold out to some of the foremost dealers in America and Europe together with their choicest stocks.

There will be four sessions of the auction which will present in particular, U. S., ancient and Canadian coins. The auctioneers have informed us they expect to offer some of the finest of Canadian coins.

This is Bunker Hill monument in Charlestown, Mass., where General George Putnam gave the command on July 12, 1775, "Don't fire until you see the whites of their eyes." This 220-foot monument was completed in 1842 to commemorate the historic battle.

They anticipate their catalog will become a reference book in this field.

We have contracted with the Medallie Art Co. of New York to strike the convention medal. They are, as you know, the outstanding medalists of the country and they will produce an artistic one. A medallie set of these will be struck in gold, silver and bronze, on order only, and at the following prices: Set of gold, silver and bronze in plastic case, \$50; a silver medal, \$5. Requests for these medals should be sent to Percy Rideout, Chairman of the Medal Committee. Closing date is August 1.

We expect the banquet to be memorable not only for the menu, but also for the professional entertainment which will be provided. Speeches will be conspicuous by their absences.

Registration cost is \$12.50, which includes a banquet ticket and a bronze medal. You can contact any committee member by writing the ANA 1960 Convention, P.O. Box 889, Boston 3, Mass. — JUNE T. POND, Publicity

Nickel constitutes nearly 10 per cent of the metals consumed yearly for coins, according to a recent survey.

The new South African decimal coins to be issued next year will bear the effigy of Jan Van Riebeeck instead of the Queen, and bronze coins will have new designs on the back, the Minister of Finance, Dr. T. E. Donges, has announced. The existing designs on two silver coins will also be slightly changed.

Dr. Donges said the Queen had been notified of the decisions and had expressed her appreciation of being informed in advance of any public announcement. A full list of the denominations of the new decimal coins with their comparable present equivalent is to be issued by the Decimalisation Board.

"The new coins," said Dr. Donges, "will be issued to come into circulation on D-Day — February 14, 1961. It has been decided that, as in the case of all bank notes at present being issued by the South African Reserve Bank, all decimal coins will bear on the obverse the effigy of Jan Van Riebeeck, the founder of the European settlement in Southern Africa."

The gold and silver coins would, with a few minor exceptions, have the same designs as their existing equivalents.

"Exceptions were the five and 2½ cent coins. The six bundles of sticks surrounding the protea will be reduced to five in the case of the five cent coin and on the 2½ cent coin the three bundles of sticks will disappear.

"In order that all possible confusion between the new decimal bronze coins and the present bronze coins should be avoided, the reverse of the decimal bronze coins will bear new distinctive designs," he said. — (*Rhodesia Herald*, compliments of G. J. Lowe)

A CHINESE-SOVIET BANKNOTE

By

H. F. BOWKER

WE ARE privileged to reproduce a mysterious banknote which it is believed has not previously been reproduced in numismatic literature. It was first noted some years ago in a cutting from a Russian language news-

of the Soviet currency of the Worker-Peasant Bank of China.

A picture of this Soviet dollar has been kindly sent to our editor by the editorial office of the French language *Journal de Shanghai*. At one side we see Lenin, and at the other Karl Marx. These banknotes

paper, published in Shanghai, in the possession of Nicholas A. Slobodchikoff of San Francisco, an additional copy of which has recently come into my possession. Neither copy indicated the name of the newspaper in which it had appeared. They were both from the same newspaper, poorly printed on inferior war-time newsprint, and could not have been satisfactorily reproduced.

The Russian text of the article which accompanied the illustration has been translated for me by Anatole S. Loucashkin of San Francisco, as follows:

Missionaries recently returned from Red imprisonment, who had been liberated by troops dispatched by General Chiang Kai-shek, brought back with them a few banknotes

have a compulsory circulation in all localities occupied by the bolsheviks. It is hard to imagine more impudent propaganda of bolshevism than the issue of "their own" bolshevik currency in China; and, however, the foreign representatives of the Shanghai Municipal Settlement do nothing against Soviet agents in Shanghai, who in all probability distribute these Soviet banknotes in Chinese provinces.

Mr. Loucashkin had in his possession a photographic print of what appears to be a copy of the above-mentioned printing from the French language newspaper, which he kindly loaned me for reproduction. It is slightly smaller than the Russian printing, which measures 130 by 72 mm, and is most probably nearer the size of the original note.

There is no indication of its color or whether or not the reverse is also printed, but it is likely that it was printed in black ink because of the acute shortage of all kinds of other printing materials in the area from which it emanated, Kiangsi. There are, however, faint indications in a horizontal line below the reverse printing on the obverse, which may be offset from the reverse printing or traces of the printing of the reverse showing through the paper.

On November 7, 1931, the First National Workers, Peasants, and Soldiers' Representative Conference met at Juichin, Kiangsi, and established the so-called Central Democratic (*sic*) Workers' and Peasants' Government of China. The Chinese soviet issued silver and copper coins dated 1932 and 1933, and it seems likely that these notes were produced at about this time. The Chi-

nese soviet forces were driven out of Kiangsi by the Nationalists in 1934, when they began their "Long March" to Yen-an in Shensi province.

It has been noted that notes were issued for Kiangsi province dated the fifth year of the Republic of China (1917) in which the obverses were arranged similarly with the oval panels at either side of the Chinese characters of denomination, but unfortunately I do not have a specimen of the one yuan denomination in my collection, for comparison. It seems likely that this note was prepared by substituting the two portraits for the scenes and rewriting the Chinese inscriptions at the top and sides.

The writer would welcome hearing from anyone who might be able to supply any information which might clear up any of the facts relating to these notes.

Numismatic Vignettes

■ Perhaps we are missing a bet — a contest could have been held to pick a title for this new page, with a \$3 gold piece as reward to the winner. Or, perhaps, a roll of 1950-D 5¢ pieces. But we like the above title and hope to confine ourselves to it as defined by Webster. *Numismatic* means anything pertaining to the science and study of coins, tokens, medals, paper money, and objects closely resembling them in form or purpose. The word *vignette*, which is frequently misused, is defined as any picture, engraving, photograph, or the like which shades off gradually into the surrounding paper; hence, a picture without a definite bounding line. The portrait of Washington on a dollar bill is not a vignette, but the view of the U.S. Treasury on the back of a ten qualifies as a vignette.

■ Speaking of misused words, we'd like to call attention to another. The dictionary defines *unique* as something that is without a like or equal; single in kind or excellence. A qualifying adjective should never be used with *unique*, for a thing is either unique or it isn't — such phrases as *almost unique* and *quite unique* should not be used. Of course, it may be proper to say that a certain coin is thought to be unique; but if another one is discovered the word *unique* should no longer be used in connection with either piece.

■ Many inquiries about obtaining current coins, and complaints that "the dealers get all new coins," have been heard from collectors recently. In most cases, the inquirers and complainers apparently do not know how new coins get into the hands of individuals.

Collectors should remember that coins (except proofs) are made for commercial use — not for us to put away in holders, rolls or bags. The Treasury Department will furnish uncirculated coins of the previous year direct to individuals at face

value plus packaging and mailing costs, but only in sets and in limited quantities. (See page 34 of *The Numismatist*, January, 1960, for details.)

New coins are made and distributed in quantity as the demand for circulating coins exceeds the supply of used ones. This demand varies considerably in different areas and times. Demands for certain coins may have various causes, such as withdrawal of a transportation token which must be replaced with coins. A certain large city never needs quarters, because one of its firms receives so many in the mail that the demand is more than supplied for the entire city.

All new coins for circulation are distributed to commercial banks from the Federal Reserve Banks, which requisition the denominations and amounts required to meet the demand of the regular banks in their areas. With but few exceptions, and usually in small quantities, a Federal Reserve Bank does not issue new coins so long as the supply of used coins is ample, and only through its member banks.

In the words of Omar Khayyam, the Persian poet —

Ah, friend, could you and I with
them conspire
To grasp this sorry scheme of
things entire;
Would we not shatter it to bits,
and then
Remould it nearer to our hearts'
desire.

The Rubaiyat

■ What youngsters we are! *The Coin Collector*, by W. C. Hazlitt, Edinburgh, 1905 (304 pp.), devotes only two pages to the United States, and mentions only the 1799 cent, 1802 half dime and 1804 dollar in addition to several colonial pieces.

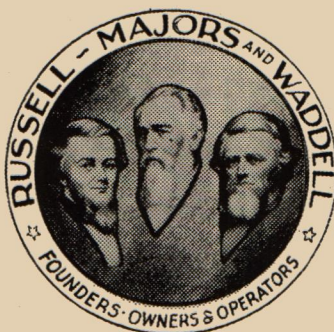

■ The "Series of 1935" \$1 silver certificate was the first piece of our money to bear representations of both the obverse and reverse of the Great Seal of the United States adopted in 1782. — GLENN S.

Pony Express Medal Available July 5

Release of the Pony Express Commemorative Medal on July 5th was announced by Waddell F. Smith, President of the National Pony Express Centennial Association. The medal will be released just two weeks before the nine day reenactment, using one thousand horses and riders, to rerun the 1966 mile route of the Pony Express, both ways.

Congress authorized and the U.S. Mint is now manufacturing this medal. They are to be delivered only to the National Pony Express Centennial Association and are expected to defray the expenses of the Centennial re-run beginning July 19, 1960, and the cost of erecting monuments and markers to preserve the location of the old trail.

The Association is a nonprofit corporation created to sponsor the Centennial and to perpetuate the history of the Pony Express. Under

its charter no individual may derive any personal profit from its operations. The Association was established by the Governors of the eight western states, Missouri, Kansas, Nebraska, Colorado, Wyoming, Utah, Nevada and California, through which the Pony Express ran.

The medal is 1 5/16ths inches in diameter (between a half dollar and a dollar in size), of bronze and the finest art work. The sculptured heads of William H. Russell, Alexander Majors, and William B. Waddell, founders and operators of Pony Express, appear on one side of the medal and on the other, the famous Hansen Pony Express Horse and Rider with appropriate language. Original design for the medal was done by Julian A. Links of San Francisco, Cal. Final design and sculpture work was done by Frank Gasparro of the staff at the Philadelphia Mint.

The Mint is manufacturing twenty thousand medals for delivery by July 5. Already half of these have been requested and paid for by organizations along the Pony Express route. Smith said that additional medals would be requested of the Director of the mint, but some delay may be experienced in delivery.

Medals are sold for \$1.75 each. In lots of ten or more the rates are ten to 24 medals, \$1.40 each; 25 to 99, \$1.25 each; 100 to 499, \$1.10 each; 500 or over \$1.00 each. Orders accompanied by check or money order will be accepted in order of receipt and should be sent to National Pony Express Centennial Association, 2998 Connor St., Salt Lake City 9, Utah.

Indonesia plans to reissue 500 rupiah and 1,000 rupiah notes, the *London Times* of May 6, 1960, reports.

Notes & Queries

Another Commemorative Medal Proposed

In commemoration of the Century 21 Exposition to be held in Seattle, Wash., in 1962, Senators Warren G. Magnuson and Henry M. Jackson introduced a bill (S. 3532) May 11 to authorize the striking of not to exceed 500,000 medals in quantities of not less than 2,000 at a time. A similar bill was introduced in the House by Representative Don Magnuson on May 18. In both instances the proposals were referred to the Senate and House committees on Banking and Currency. These pieces, to be struck at the U. S. Mint, will be considered national medals, but their distribution will be made by the Century 21 Commission.

Ancients Displayed Recently At Lafayette College

Recently fifty ancient coins were exhibited in the Van Wickles Library at Lafayette College. Back in 1947 Dr. Johannes A. Gaertner, associate professor of languages and fine arts, found these coins while rummaging through other collections belonging to the college. Most of the pieces are Roman, although there is a representation of Greek and Jewish coins.

Arkansas Society's Convention

The May 29th convention of the Arkansas Numismatic Society turned out to be a gala affair. Someone likened it to a county fair as 250 people moved from one attraction to another.

Highlight of the day was an open discussion held by Leroy Letteer, special agent in charge of the secret service in Little Rock. Mr. Letteer told us of a group of people, including a Chinese lady genius at engraving, who spent ten years perfecting a die for a \$50 note. Others made a perfect rice paper. Only \$20,000 in these bills got into circulation before they were detected. The give-away was a small deliberate flaw in the original dies; the counterfeit notes were flawless. Even on the large blow-ups of the notes this difference was hard for us to see. One young man drew a laugh when, after eagerly inspecting a phony \$10 bill he came up with the question, "How long does it take to make one of these?"

New officers elected were: President, W. N. Hackett; Vice President, C. G. Ball; Secretary, Mrs. J. P. Willis; Treasurer, Dr. J. R. Luten. — Mrs. J. P. WILLIS, Secretary

Hoard of Tyrian Shekels Found on Mount Carmel

In the Spring of 1960, some two thousand Tyrian silver shekels—30% of them half shekels—were secured by members of the Israel Numismatic Society for scientific listing and description. The shekels, from 50 B.C. to 50 A.D., are in excellent state of preservation and belong to a hoard discovered near Isfiya on Mount Carmel. Some additional 1,000 shekels are in the hands of the Israel authorities. This hoard, which exceeds by far that of several hundred Tyrian shekels excavated recently at Khirbet, Qumran, will be published in the near future by Dr. E. W. Klimowsky and Eng. G. Cohn.

The discovery of big hoards of Tyrian shekels in Israel and in Palestine is very interesting. The Talmud expressly states that "all the money of which the law speaks is Tyrian money" (Tosefta Ketubot XII fin). The half shekel for the Temple dues was to be paid in Tyrian money and the five shekels paid as redemption for the first-born were also to be of Tyrian weight (Behorot, VIII, 7). According to the testimony of Josephus, Tyrian money was current in Palestine at the time of the Jewish-Roman War (Bel. Jud. II, 21, 2). On the other hand, the latest date found on the Tyrian shekels and half shekels is equivalent to 69/70 A.D. This indicates that the issue of Tyrian silver shekels was obviously stopped by the Romans in A.D. 70, i.e., with the destruction of Jerusalem and the Temple, as already supposed by G. F. Hill and E. T. Newell.

In this light, we may try to explain the origin of the Mount Carmel hoard with its three thousand Tyrian shekels and half shekels. It seems extremely unlikely that the private fortune of a person should have been composed almost exclusively of Tyrian shekels of the same type. It is also improbable that the hoard should have belonged to a bank or a military money chest.

Against this, the following hypothesis could be taken into consideration:

According to the Tractate "Shekalim" (shekel dues) of the Mishna, in the month of Adar of each year, the half shekel, which every Jew had to pay for Temple dues, was collected. On the first of Adar, Temple dues were proclaimed; on the fifteenth of Adar, the actual payment in the provinces began; on the twenty-fifth, the dues were accepted in the Temple in Jerusalem. The half shekel had to be paid in Tyrian money. The money was sent from each town to the Temple by special messengers.

It seems possible that the Mount Carmel hoard represents the Temple dues of some five thousand inhabitants, perhaps of a town in Phoenicia,

or Syria, which was on the way to Jerusalem, in the Spring of 67 A.D. But when the messengers reached Mount Carmel in the summer of that year, they found the way already barred by Roman troops. So they resolved to bury the money until the way to the Temple would again be open. This never happened and the hoard remained buried on this spot until it was discovered in our days. — LEO KADMAN, Tel-Aviv

WANT COMMEMORATIVE COINS?

The following letter is submitted by Ben W. Williams, President of the Numismatic Association of Southern California, with the hope that coin clubs, as well as individual collectors, will write at once to their Congressmen and Senators urging restoration of commemorative coinage.

Honorable John Doe,
House of Representatives,
Washington, D. C.

Dear Sir:

This letter is being written to Congressmen in Washington after several long and earnest discussions by the board of governors of the Numismatic Association of Southern California.

As you probably know, the American Numismatic Association was chartered by an Act of Congress on May 9, 1912. We think it would be only fitting, therefore, for Congress to issue once again commemorative coins for the benefit of posterity.

For your information, coin collecting is America's fastest growing hobby, rapidly overtaking philately. There are literally millions of people in this country who collect coins to some degree for relaxation and pleasure. These collectors have been deprived of commemorative coins by recent administrations in Washington, and we, as an organization, have decided it is time we do some investigating as to why we have not had favorable action on bills introduced to commemorate events in our history. We would like to see these historical events handed down to posterity in the form of commemorative coins.

Among events which should be commemorated in just the past year are the admissions of our forty-ninth and fiftieth states, Alaska and Hawaii; and different events in our conquest of space, all of which if preserved in uncirculated and cherished commemorative coins, would add to the glory of our history for our coming generations.

We are anxious to determine which of our legislators will help us in arriving at our goal of reestablishing the issuance of these commemorative coins.

Please let us hear from you concerning your thought on our request. Also, we would be glad to have your advice as to what procedure we might take to help restore commemorative coinage.

Very truly yours,

NUMISMATIC ASSOCIATION OF SOUTHERN CALIFORNIA
Ben W. Williams, President

South Africa's Decimal Coinage — The South African Decimalization Board has announced that gold coins will be struck in South Africa in limited quantities only as parts of sets to be sold to numismatists throughout the world. All the new notes and coins which are to be issued will incorporate only their respective rand and cent values. They will be of the same size and weight as their present equivalents and will bear the portrait of Jan van Riebeeck, who founded the first Dutch settlement in South Africa at Cape Town in 1652. (Barclays Bank D.C.O., *Overseas Review*, London, England, April 1960)

Currency in U.S.S.R. — All Soviet citizens will be required during a three-month period beginning in January, 1961, to exchange the rubles now in circulation for new rubles at the rate of ten to one. All wages and prices will be divided by ten, and the nominal gold parity of the ruble multiplied by ten. This will raise the nominal exchange value of the ruble from 25 cents, as at present, to \$2.50. (London *Times*, May 18, 1960)

Book Reviews

"Alaska's Coinage Through the Years" by Maurice M. Gould and Kenneth Bressett, illus., 46 pp., Whitman Publishing Co., Racine, Wis., 1960, flexible black cover, \$1.00.

With the addition of two more states to the Union in the last two years, it is altogether fitting and proper that catalogs of their numismatic past should be issued. The earlier book on Hawaiian coins, paper money, tokens and medals by Maurice Gould and Kenneth Bressett received the warm approbation of their fellow numismatists. This work on Alaskan numismatics, too, will be well received.

It is fortunate, indeed, that these two little handbooks, inexpensive but adequate, are at hand while public interest in the new states is still glowing. Being "firsts," it is too much to expect them to be error-free or complete, but they are solid contributions to their respective fields.

This catalog contains all that is known to the authors of the token money, medals, paper money, trans-

portation tokens, souvenir gold pieces of Alaska. A brief history of the new state plus picturization and listings of two hundred items with estimated values makes this an informative and useful booklet for both beginner and advanced collector.

Most Americans have known little of numismatic Alaska and that knowledge could just about be summed up as "too wah, pinch and bingle." Nor do some of the Alaskan coin collectors know much more, for when this reviewer was in Alaska last year and asked one of the local coin collectors about Matanuska Valley tokens (or "bingles"), the reply was, "I've never heard of them. What are they?" Perhaps this book will find a ready sale in Alaska, too!

Summation: A good investment for a dollar. — ELSTON B. BRADFIELD

"A Guide Book of Canadian Coins, Currency and Tokens," by H. C. Taylor and Somer James, second edition, enlarged, illustrated throughout. Winnipeg, Manitoba: Canadian Numismatic Publishing Institute, 1960, 232 pages, wire bound, \$1.75.

Canada, which for so long a time was without adequate contemporary numismatic literature, now has two major catalogs to choose between, the "Guide Book" and James E. Charlton's "Standard Catalogue," though sales records would suggest that a good many collectors prefer to keep both books on hand. The "Guide Book," as newcomer to the field, has been viewed with particular interest, and speculation has centered about what new material its current second edition would incorporate. The edition now is on dealers' shelves, and fanciers of Canada's many numismatic series will be pleasantly surprised by the ambition shown in the new volume, though they will recognize that on the criteria of expertness and completeness the added sections leave a good deal to be desired.

The most significant contribution of the enlarged "Guide Book" is its listing of chartered bank paper currencies, including broken bank varieties: more than fifty obverses are depicted, about evenly divided between the negotiable and the broken issues, and many of the illustrations are of material which the average collector will not have seen. Here we have one of Canada's most colorful and least documented series, one which remains surprisingly accessible. A majority of the issues of 1918-1943 can be obtained, in average condition, at a premium limited to a nominal advance over face. The "Guide Book" lists items for some 26 of 98 Canadian banks of issue. The listings, while incomplete, are the first such data available to collectors, apart from Howard's useful "Canadian Banks and Bank Notes —

A Record," a history which makes no pretense of documenting specific releases.

Prices quoted are realistic: The errors, primarily, are of omission, though the section's lack of logical sequence is unfortunate. A start has been made, a start which Canadian collectors recognize as long overdue. Further editions no doubt will see this important section expanded, and the Canadian chartered series will begin to receive the attention it deserves.

This second edition "Guide Book" is enlarged to 252 pages, from its forerunner's 152, and the extra pages have made possible a number of worthwhile additions. It is the stated policy of the "Guide Book" to provide a basic catalog of the principal Canadian series, annually revised, supplemented from year to year with material which may not merit repetition, but to which the student has reference through consulting back volumes. The 1959 edition was the first book to look seriously at Canada's twentieth-century commercial tokens, an interesting but not overly popular series. The revision develops this series considerably, offers a useful numbering system, and further documents the little-known communion tokens. Worthwhile material is of-

fered on early private and corporate scrip, and related illustrations extend from French regime playing card money and British army bills to the relatively familiar 1837 depression scrip. Decimal listings, their revised prices reflecting Canada's buoyant economy and increased numismatic enthusiasm, include several new varieties: The collecting of minor varieties is a trend to be detected in Canada as in the United States. A guide to grading is offered through enlarged illustrations of a number of popular Canadian pieces. Several scenes at the Royal Canadian Mint, Ottawa, and a short history of that institution, are worthwhile additions to the book.

The catalog shows signs of imagination and hard work. Its 1,350 illustrations cover a great diversity of exchange media, from billiard hall checks to Bank of Canada "asterisk" bills. For the student interested in any phase of Canadian numismatics, or curious to know the kind of material Canada's distinctive series have to offer, the book is a worthwhile and servicable investment. It should stimulate a good deal of enthusiasm for the already popular and the less known of Canadian fields. — HAROLD DON ALLEN

WHO'S WHO OR WHO'S WHAT?

Isn't it about time we quit calling others names and started thinking about what others may be calling us? We might be surprised to find that some of the old shoes thrown at us fit pretty well, if we only took the time to try them on carefully. This sort of thinking was prompted by an "anonymous" gripe published on page 737 in June. The writer complained that his check for 1958 nickels was returned because "they were out of the \$5 rolls but did have \$9 rolls. That's what I call 'profiteering'! Of course, these nickels went up in price, but at the time I sent it was close to price around here and *I thought I'd better get some more.* . . . 'Profiteers' will ruin the coin collecting hobby if *we collectors* don't watch it." (Italics mine)

Maybe you can think of some other designations (printable, of course) that are being used loosely, but can you or I define the following ones strictly, and be sure which to apply to ourselves and others: Numismatist, collector, dealer, investor, speculator, hoarder, profiteer?

Now, "anonymous" is quite definite — he is a "collector"; the man who didn't supply 1958 nickels at his advertised price of \$5 per roll is a

"profiteer." But why does a true collector think he'd "better get some more" 1958-P nickels? What kind of a true collection of coins needs "some more" 1958-P nickels? Surely our anonymous reader would be honest enough with himself and us to admit that he is not strictly a collector. Actually, he isn't complaining about paying the higher price for coins for his collection, but he is probably incensed with the thought that some one else is getting \$4 which he had hoped to add to his own gains.

Nor has he considered that perhaps the dealer really was "out of the \$5 rolls but did have \$9 rolls." It is quite likely that, in the twenty-day period between submission of copy by the advertiser and receipt of the published offer by "anonymous," the dealer had sold all of his stock of \$5 rolls. As often happens with fast-moving items in a rapidly rising market, the dealer probably had replenished his stock with higher cost rolls, for the letter of complaint states "of course, these nickels went up in price . . ." So we are given no evidence to prove that the dealer is a "profiteer."

Name calling isn't new, nor is it confined to political campaigns or war propaganda. When done deliberately, it can become the basis of libel or slander actions in court. But intentional or not, it does spread ill will, to say the least, that is hardly in keeping with hobbyism. — GLENN B. SMEDLEY, Assistant to the Editor.

PRESIDENT DODSON RECEIVES AN AWARD

A group of members of the A.N.A., in attendance at the convention of the Central States Numismatic Society, participated in the opening ceremonies of the Money Museum at the National Bank of Detroit on April 29, 1960, and in that connection presented to Admiral O. H. Dodson a special plaque in recognition of his position as Director of the Money Museum and as President of the A.N.A. The award was made by General Secretary Lewis M. Reagan, who spoke as follows:

Mr. President:

The presence of this distinguished group in the Money Museum at this particular time is not an accident . . . these members are here for a purpose,

a very delightful one, but a serious one as well. These members represent a very much larger group of your friends from all parts of the country who wish to have a part in extending to you their best wishes on the occasion of this most important milestone in your own career and in numismatic history.

A formal expression of these good wishes is not really necessary for you are well aware of the fact that all members of the A.N.A. have watched the announcements of the development of this museum with more than ordinary interest and have looked forward to this instant when the plans and preparations have become reality. You would know that you have our best wishes even if we didn't say so . . . but we do say so, and have caused them to be engraved on this plaque as a permanent reminder.

We extend our thanks and best wishes also to those who have made this Money Museum possible. To Mr. Nate Shapero, in particular, and to the National Bank of Detroit and its officers, and to the members of your staff, who have made available to Detroit and to all those interested in numismatics, this magnificent collection, so attractively arranged, again, our most enthusiastic thanks.

The President accepted the award most graciously, with well chosen words of thanks and appreciation, and then conducted the group on a tour of the Bank and its many points of interest. He extended an invitation to all members to visit the Money Museum at any time when they are in Detroit. The visit will be well worth the trip.

FOR A LONG TIME YOU HAVE WANTED to read *Numismatic* articles written by such distinguished contributors of the past as Howland Wood, Farran Zerbe, Thomas Elder, etc., but have not found them readily available. Well, you can get them soon – and at low cost! Watch *The Numismatist* for important announcement!

NOTES FROM YOUR LIBRARIAN

Publishers of numismatic books, please take note. We will have a free display table at the convention for numismatic publications. If you wish to have your books on display, send them to the Statler-Hilton Hotel, Boston, Mass. in care of John J. Gabarron, ANA Librarian. All books will be returned unless otherwise specified.

We have loaned out many books since our new catalog was issued. Please return your books on time. I ask members who have not received their books to be patient. We will fill the back orders as soon as the books are available.

We still have some Indexes to *The Numismatist*, 1939-1958. Don't be left out. Get yours now. Copies sell for \$1.00 each to ANA members and \$1.50 to nonmembers.

We need another complete set of bound volumes of *The Numismatist* for library use. We could use donations of old *Numismatists* earlier than 1931 or if you have complete sets of these years, we would consider buying them. Of course, we can use all other years, too. All proceeds from the sale of back issues go into the library fund for the purchase of new books.

We have a new reprint *Coinage of Hawaii* by Jacob Adler and A. Kosoff, 50¢ each.

Many thanks to the following for their donations to the library: Henry O. Nouss, T. N. Weissbuch, Robert Verity, Capt. F. J. Seymour, F. D. Washburn, Joseph A. Caesar and F. Xavier Calico.

SALE OF 1960 PROOF SETS DISCONTINUED

The sale of proof coins bearing the 1960 date has been discontinued. All orders received since April 30, 1960 are being returned. The Philadelphia Mint will receive orders for the 1961 proof sets starting November 1, 1960.

Orders already received, plus those that are in the process of being opened and those that meet the April 30 deadline, will amount to at least 1,700,000 sets, according to the Mint Bureau. Working three shifts seven days a week will tax the Mint's capacity to fill the orders received. That is the reason for the cut-off date.

Nickel Alloy Used in 4000 B.C. — Meteoric iron containing from 5 to 26 per cent nickel was used for knives, axes and other implements as early as 4000 B.C.

NUMISMATIC PAPERS, PLEASE

The response to our initial "Call for Numismatic Papers" which appeared in the June issue of *The Numismatist* has been particularly gratifying. However, to realize our goal of one-hundred-and-fifty manuscripts, we have taken on quite an assignment to fulfill and we trust you will accept this call as no less than a personal challenge.

A review of the pages of *The Numismatist* will serve as a guide that there are literally no restrictions on the theme of your numismatic article, or the length of your membership in the Association.

In sharing your knowledge or views on some particular phase of numismatics, your paper, upon being accepted and published, will be eligible for consideration for the annual Heath Literary Awards.

Should you need any assistance in preparing your manuscript, please feel free to write to the Chairman of the 1960 Papers Committee, or our Librarian, John J. Gabarron, P. O. Box 3011, Lincoln 10, Nebr., if research data is needed by way of consulting some authoritative book.

The value of photographs accompanying your manuscript is all too obvious, and warrants no further comment: suffice to call to your attention the informative article on page 523 of the May, 1957 issue of *The Numismatist* on "How to Photograph Coins" which you may wish to refer to for further guidance.

We await your valued contribution!

The **Western Illinois Coin Club** will hold its Fourth Annual Picnic July 17 at Lake Storey, commencing at 10 a.m. at the Lions Shelter. Auction of 200 lots starts at 1:30. Dealers' tables are \$3.00 each. Bring your own lunch. Pop, coffee and cake will be furnished by the club. Lake Storey is four miles north of Galesburg on U. S. Route 150. It has a fine swimming beach, playground equipment, and picnic areas. — JERRY SHAFER, Secretary, 436 Locust St., Galesburg, Ill.

The **Furniture City Coin Club** convention will be held July 30th and 31st, in High Point, N. C., at the Sheraton Hotel. Bourse tables will be available. Prizes will be awarded for best displays. An auction will be held July 30th at 7:30 p.m. Further information may be secured from the Club's Secretary and Treasurer, A. C. Schultz, P. O. Box 667, High Point, N. C. — A. C. SCHULTZ, Sec.

At the May meeting of **Boeing Coin Club** (Wichita), we were privileged to hear Cecil B. Edwards speak about money and the collecting of it as viewed from a bank teller's window. This was followed by an enthusiastic question and answer period. — CARL COFFMAN, Corresp.

The **Columbus (Ohio) Coin Club** held its May meeting at Wetstone Park. George Andrews displayed medals, ribbons and trophies collected during his years in numismatics and World War I. Dwane Lockwood showed half and silver dollars, while Fred Kern exhibited an uncut sheet of National currency and a reconstructed sheet of Series 1917 Legal Tender \$1 bills. Other exhibits were: Barber and Standing Liberty quarters which Charles Hoff collected from circulation; Egyptian gold by Don Devore; colonial money by Harry Detwiler; and type sets of U. S. and foreign coins by C. E. Abbot. — BRUCE SCHNEIDER, Reporter.

Including eight guests, attendance at the 142nd meeting of **San Bernardino County Coin Club** was 100. Leroy Meyers won first place at CSNA convention for his paper money display. Guest speaker Bill Hogue gave an informative talk on counterfeit paper money and coins. He illustrated the talk with several cases containing genuine and counterfeit money, so that comparisons could be made. — SYLVIA NOVACK, Rec. Sec.

The **Los Angeles Coin Club** considers the attendance of 288 at its April meeting as only so-so, according to its paper, *The Wire Edge*. M. H. Bolender of San Marino made it a memorable evening with his talk on early U. S. coinage, illustrated with slides. He told us of the invention of a new coining press by Drozt of Switzerland only six years before the U. S. mint was set up, and how Henry Voigt, an American artist, became the first chief coiner and also die engraver for many years. We saw slides of the 1794 silver dollar, showing lack of experience by the engraver, and of the rare 1801, -2 and -3 proof restrike dollars. Bolender is a veteran dealer and collector who has a wealth of information which he is happy to share with others. — BARBARA RHODES, Editor.

Featured speaker at the May meeting of the **Waterloo (Ontario) Coin Society** was Bill English, who spoke on counterfeiting as practiced to deceive the public and as employed to hoodwink collectors. He showed us several counterfeits which were representative of the high and low of the "art." Other members had brought along examples of counterfeits, and Ben Matthews exhibited a frame containing a genuine and a counterfeit \$10 Canadian banknote. Only by careful comparison of the two notes could the difference be distinguished. Frank Uttley showed a proposed club crest prepared by another member, and led the discussion on this project. It was agreed to postpone selection of a design until the June meeting to give newer members an opportunity to submit their ideas. The secretary outlined a plan which this club is willing to sponsor that would provide a speaker's roster, from which clubs in the area could select guest speakers. Each club would be free to call on listed speakers for talks on their particular topics, but should be prepared to reimburse his transportation cost and, above all, give him a friendly reception during the visit. We feel that such a plan offers club members a great deal of benefit. Clubs in St. Catharines, Woodstock, London, Hamilton and Toronto have been contacted. — ROP R. REKOFSKI, Sec.

[EDITOR'S NOTE: Here is a plan which clubs in the United States should consider carefully, as it could provide a much needed service.]

Harry C. Bartley and R. E. Yeager exhibited a number of rare and unusual early and recent Canadian tokens, medals and coins. — ROBERT A. LLOYD, Sec.-Treas.

The 262nd meeting of Orange County Coin Club was held April 27 with an attendance of 154. President Dan Harley announced that our Club has asked for the 1964 fall CSNA convention, to be held at Disneyland, in observance of our 25th birthday. He proposed that a fund be started for this affair with the sale of a valuable coin donated for the purpose by Earl Parker of San Francisco. Junior Member Robert Bartshe was "Collector of the Month," displaying his fine set of Indian Head cents and giving an account of its formation. Maurice Jensen gave an outstanding talk on the 1913 Liberty Head nickel, explaining several theories of the origin of the five known specimens and a history of their ownership. They were held by Colonel Green from 1923 until 1942, when B. G. Johnson of St. Louis auctioned them singly. Maurice has given careful study to this subject, and feels that these five coins may have been struck late in 1919 or early 1920. (Editor's note: See Long Beach Coin Club news in this issue for more on 1913 nickel.) — HERB BERGEN, Sec.

Thirty-two members were present at the May 11 meeting of Permian Basin Coin Club in the American Legion Hall in Monahans, Texas. Some items in the collection date back to President Andrew Jackson's time, to what Bibler called "the first real depression in this country." Included in the exhibit were CSA notes, scrip of Southern States, a Westphalia 50-million mark piece, Chamber of Commerce and American Legion scrip of the 1930s, wheat scrip of the West Coast, wooden money of Tenino and Blaine, and a Bryan dollar. The **Washington Numismatic Society** met May 2 with Brent Hughes, a recognized authority on Confederate money, speaking on "Counterfeiting Confederate Currency." His talk was illustrated by

many interesting slides and exhibits. One interesting feature was the fact that all authentic bills had hand written signatures and serial numbers. The earlier engraved bills were harder to counterfeit than the later lithographed ones due to the detailed design, and quality of the paper. Visitors are welcome at the meetings held the first Monday evening each month at the Natural History Museum, Tenth St. and Constitution Ave. Northwest, Washington, D. C. — JOSEPH A. CLARKE, Sec.

The New Bedford Coin Club held a National Coin Week exhibit at the New Bedford Five Cents Savings Bank. Years of research and collecting were behind this exhibit, which included Colonial and gold coins, large size U. S. paper money, an 1856 flying eagle cent, and complete sets of minor coins. Bank officials were enthusiastic at the interest shown by the large number of people who viewed the exhibit, which was publicized by two local radio stations and a feature story in the newspaper. Exhibit Chairman Gilbert Green and his assistants, Roland Fortier and Dr. Everett Walters, did an excellent job. Coin collecting as a pleasurable hobby was given a tremendous boost in the greater New Bedford area, and we expect a number of applications for membership in our Club. — ALPHONSE A. CHENETTE, Sec.

A NEW KIND OF COIN ALBUM

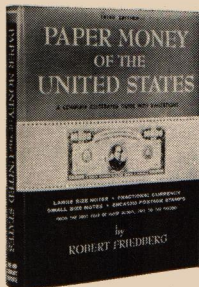

The Library of Coins

Complete visibility and complete protection, the two most-wanted features of a coin album, are presented for the first time by *The Library of Coins*. Bound like books, handsome and compact, each Library of Coins volume displays and protects its coins between two sliding panels of clear, tough plastic. Each coin "porthole" has printed next to it full data on mint mark and quantity minted. Each volume contains a brief background story on the coins, giving both the novice and advanced collector helpful information, including a listing of the rare dates.

Measuring $8\frac{1}{4} \times 6\frac{1}{4}$ ", the volumes are low priced, sturdily manufactured, and permanently bound in a variety of identifying colors for the various denominations. Their compact size permits the storing of a large coin collection in very small space. Backbones are clearly gold stamped so that they are as readily identifiable as are books.

The Library of Coins represents the first major innovation in high grade coin albums in more than 30 years, and was several years in development. Designed by numismatists, the Library of Coins is designed to satisfy the needs and desires of numismatists. Write for descriptive circular on the Library of Coins.

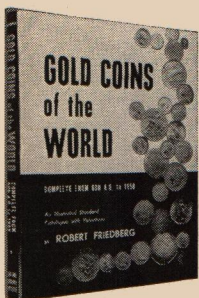

PAPER MONEY OF THE UNITED STATES

A complete illustrated guide with valuations by Robert Friedberg

Large size Notes; small size Notes; fractional currency; encased postage stamps.

A new, remarkable section, "National Bank Notes by States," illustrates and evaluates by state every National Bank Note, more than 2,200 valuations in all! Territorial Notes are also catalogued, and finally there is a geographical and numerical list of all 14,348 National Banks. More than 300 pages, $8\frac{1}{2} \times 11$ ", cloth bound. The only reference work of its kind in the world. A definitive work, Third Edition, 1959.

SPECIAL PRICES ON CIVIL WAR CENT RARITIES —

**(Prices on items marked SPECIAL good only until July 30th
or until stock is depleted)**

During the past year Civil War cents have risen from relative obscurity to prominence as a leading series of United States coins. Most of the present intense interest in Civil War cents is due to the realization that Civil War cents are not difficult to collect and fit well into nearly every collection of United States coins. The interest in the series has been further accelerated by the issuance of the Whitman Publishing Company booklet and descriptive guide "Patriotic Civil War Tokens," which lists, illustrates, describes and gives the interesting historical background of Civil War cents. Still a third factor is the coming of the Civil War centennial years, creating great interest in the display of Civil War cents and Confederate paper money.

The most often found Civil War cents are those struck in copper or bronze, the size of an Indian cent. More rarely, specimens are found in brass, nickel, copper-nickel, lead, white metal or silver. Silver pieces are extreme rarities and are seldom encountered. Among the most fascinating Civil War cents are those struck over regular United States copper-nickel Indian cents. No satisfactory explanation concerning the reason for overstriking Indian cents has ever been advanced. Perhaps they were intended as patterns or die trials. In any event, they were struck in almost insignificant numbers as very few are in existence today.

We believe that we have the finest dealer's stock of Civil War cents; a stock that includes thousands of choice pieces — pieces from the Fuld, Gutttag and other well-known collections. This stock is rich in Civil War cent rarities. We are offering selections of Civil War cent rarities at what we believe to be very reasonable prices. The groups marked "SPECIAL" might even be termed *bargains*. A small type set of Civil War cents illustrating the various metals of striking and a few of the interesting designs will go well with your present collection of small U. S. cents or with a type collection of U. S. coins. At our present prices you can get in "on the ground floor" in buying at reasonable prices what may very well be the high priced rarities of tomorrow. The prices on items and groups marked "SPECIAL" are good only until July 30th or until our stock is depleted. As per our usual policy satisfaction is guaranteed on all orders. All orders will be sent postpaid.

THE OFFICIAL PONY EXPRESS

This Bronze Medal commemorates the Centennial of the famed Pony Express. It was authorized by Public Law 86-394 86th Congress, S.2454, March 18, 1960. The medal will be placed on sale July 1, 1960.

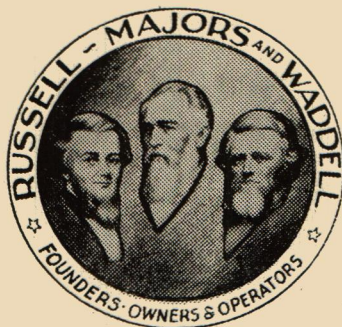

It is illustrated above* and will be 1 5/16". It comes attractively packed in a soft plastic transparent folder, in an individually printed envelope. A printed leaflet of historical data also accompanies each medal. The medal will be executed by the United States Mint at Philadelphia.

The sculptured heads of Russell, Majors, and Waddell, the founders and operators of the historic Pony Express, will appear on one side and on the other side the famous Hansen Pony Express horse and rider.

The Pony Express was organized without a subsidy at a time of great national peril. It was, for a time, the only means of communication with California except by sea and was instrumental in holding California to the Union. The Pony Express has become famous throughout the world as the most dramatic expression of American pioneering courage. It will live forever in the hearts of all Americans, young and old.

*Minor changes have been made by the U. S. Mint.

JOHNSON'S APPROVAL SHIPMENTS

For twenty years now, busy people in the trades, business and professions, have found my approval shipments the easy, convenient way to build up nice coin collections. Start in now getting the best coin values, with the least bother possible.

Simply send me a list of the coins you need, in any series Half Cents to Gold coins, or Paper Money. Or, a list of the coins you already have, if shorter. You will receive a selection on approval, on which you pay \$10.00 or more a month on coins you keep. I send more coins as you make payments. You can stop shipments any time you do not want to continue. If you have no special series in mind, here are a few suggestions:

TYPE SET OF REGULAR U. S. COINS: One coin of each different design (not dates or mintmarks), from Half Cents to Silver Dollars. Album to hold the Type set will come with your first shipment.

TYPE SET OF U. S. GOLD COINS: Different designs of gold coins from Gold Dollars to \$20.00 pieces. A beautiful plastic holder for the type set with your first shipment.

FOREIGN SILVER DOLLARS: One Silver Dollar from each different country. Travel the world in your easy chair, from Afghanistan to Zanzibar. Album to hold the dollars, with first shipment.

COMMEMORATIVE HALF DOLLARS: The number one series in United States coins, a must for every collection. After first shipment, you can decide if you want to work on a Type set, or the Complete set. Incidentally, I believe I buy and sell more Commemorative coins than any other dealer, so if you have a set, part set, or any quantity you want to sell, just wrap them up and send to me for my best offer and check. Coins will be held intact awaiting your O.K.

UNITED STATES PAPER MONEY: Beautifully engraved notes, issued from 1862 to date. All illustrated and valued in the Friedberg Paper Money Book, which I would be glad to send on approval if you do not have a copy as yet.

ALSO INDIAN CENTS, LINCOLN CENTS, NICKELS, DIMES, QUARTERS, HALF DOLLARS, DOLLARS, CANADIAN COINS, FOREIGN GOLD COINS, FRACTIONAL CURRENCY, etc.

PURCHASES: Send collections or duplicates you wish to sell, by Registered Mail or Railway Express. I will figure them up and submit best offer and check. Then, will hold coins for your reply. If no deal, coins will be returned fully insured.

Useful for cleaning all kinds of coins, but particularly adapted to cleaning coins of copper or nickel.

**EASY TO USE AND ECONOMICAL!
FAST ACTION — IT ACTUALLY
CLEANS IN SECONDS!**

Does not add shine, but brings out natural color, including original brilliance if it is still there under tarnish or coating. Dull or dark uncirculated coins become brilliant uncirculated coins in seconds.

This result of years of experiment can be safely used on valuable coins to improve their appearance and increase their value.

On sale in many leading stores in 4-oz. bottles, with full directions, at \$1.00.

If your dealer does not yet have it, send us \$1.00 for 3-oz. bottle (enough to clean hundreds of coins) carefully packed and postpaid to any address in the United States or Canada.

SPECIAL OFFER TO DEALERS
Send \$4.00 for six 4-oz. bottles of "CCC," postpaid.

BUSINESS OR PLEASURE?

Do you collect for the fun of it? Do you like to relax with your coins?

Many collectors now treat their hobby like a business, watching the market reports, and buying and selling for investment (and also worrying about the profits and losses).

I suggest that you take stock of yourself, and get back to the "fun" state which you once had when you began, perhaps long ago. If you want to relax with your hobby, why not try foreign coins? You buy a coin because you like it today, not because of tomorrow's profits. You enjoy it now and after all, you can't take it with you.

Perhaps you will enjoy my price list of foreign coins, from minor through gold, nice coins, fair prices. This list is free; please write for it now and become a collector again.
